- AntD, MUI, ShadCn

SOFT SKILLS

- Problem-Solving
- Adaptability
- Critical Thinking
- Creativity
- Learning Orientation
- Self-Motivation

PROFILE

I am a front-end developer with 1 years of experience in building web applications. My skills cover the core front-end technologies such as HTML, CSS, and JavaScript. I am also familiar with modern frameworks and libraries like React .

In my work, I aim to create responsive and user-friendly interfaces. I have experience with build tools like Webpack and basic version control systems like Git. I actively follow best practices for writing clean and maintainable code, as well as testing applications to ensure their reliability.

My experience includes working on projects both as part of academic assignments and in real commercial projects. I have been involved in developing user interfaces, integrating APIs, and debugging. I am also continually learning new technologies and tools to improve my skills and grow as a professional.

I take pride in my ability to quickly adapt to new challenges and find solutions to complex problems. I actively participate in team collaboration, am open to constructive feedback, and am committed to continuous growth and improving code quality.
